HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

HORNE'S
PATENT SINCH FASTENER!

CAN BE USED ON PACK, RIDING AND SIDE Saddles. A child large enough to lift a saddle on a horse can tighten up the girth with ease. It is very simple in construction, never gets out of repair, is safe, convenient and costs very little more than the old method.

State, Territorial and County Rights for sale. For the Pacific States and Territories, address C. H. HORNE, Astoria, Clatsop county, Oregon. Atlantic States, address J. W. GEARHART, care of Messrs Barnet, Sinlsby & Ballard, Newark, N. J.

We respectfully refer to the following Card:

Having examined the New Patent Sinch or Belly Band Fastener, invented by C. H. Horne, of Astoria, Oregon, we take pleasure in informing the public that in our opinion it is one of the easiest, quickest and best method of tightening a saddle girth that has ever been in use. It also has an advantage over all others in use in being able to tighten your saddle girth without dismounting.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO APRIL 6.

Congressional.

WASHINGTON, April 6.—The Senate this afternoon confirmed the nomination of Wm. Grovesneur Morris as Marshal of the District of California. The Senate and House joint resolution directing inquiry into the loss of the *Oneida*, passed.

A bill was introduced to appropriate the proceeds of sales of public lands of the United States for educational purposes.

A bill requiring Supervisor's of Internal Revenue to be appointed by the President and confirmed by the Senate, was reported adversely.

A bill relative to refining gold and silver bullion of the United States was reported favorably.

In the House, the bill for establishing a bureau of Education, and discontinuing the Freedmen's Bureau, was taken up and passed by 104 to 62.

Poland, from the Committee on Revision of the Laws, reported a bill to amend the Bankruptcy act, by providing that jurisdiction conferred on the Supreme Court in the Territories may be exercised on petitions regularly had in such courts by either of the Judges thereby, and shall have supervisory jurisdiction as conferred on the United States Circuit Courts over the proceedings of the District Courts, passed.

Funeral Obsequies of Gen. Thomas.

Memorial services in honor of Gen. Thomas were held in the Hall of Representatives this evening. Among those present were several foreign ministers, attaches of legation and ladies. The floor was filled principally with Representatives, Senators and officers, including Gen. Sherman. Fronting the Speaker's chair were President Grant, Messrs. Fish, Roberts, Belknap, Hoar, Cresswell, Chase and all other Judges of Supreme Court. The hall was draped with flags with crape. Secretary Cox presided, assisted by Messrs. Colfax and Blaine, and after prayer by Dr. Newman, the Marine band played a dirge. In his remarks, Gen. Cox said: "We have met to mourn one whom the nation honored as one of its greatest men by common consent of friend and foe." He passed a brief eulogy on the character of the deceased, for bravery, modesty and stern integrity. Gen. McCook, of Colorado, said those present to-night, not only of comrades who served with Gen. Thomas, but of representatives of the people of the United States, who conferred on him honors and rank, attest the grief which possess all hearts. He read a series of resolutions. Gen. Sherman briefly traced the military career of deceased, and concluded with the remark that his death might be traced to long exposure to the shocks and tumults of war and providence of that God who ruled all things for the best. Carl Schurz, Gen. Garfield and others followed in highly eulogistic speeches.

Result of the Elections.

HARTFORD, April 5.—The result of the election gives the Senate to the Democrats by a majority of one, unless the 16th District should be Republican. The House is Republican by about six majority. English's majority is about 600.

TOLEDO, April 5.—The *Commercial* places Peck's majority for Congress in this District at over 2,000; the largest ever given any Republican candidate.

MILWAUKIE, April 5.—The city election to-day resulted in the election of the Democratic ticket, with one exception. The City Attorney is elected by 400 majority.

New City Charter for New York.

NEW YORK, April 6.—Tweed's city charter passed the Senate by a vote of 30 against 2. It now requires the signature of the Governor. The city election bill which passed the Senate to-day is very stringent.

The Assembly concurred in the Senate amendment to the New York election bill.

NEW YORK, April 6.—It is stated that one thousand Chinese cigar makers are to be brought here from San Francisco.

Affairs at Richmond.

RICHMOND, VA., April 6.—The city troubles have at last got into the Supreme Court. A motion by Ellison and others to dissolve the injunction will be heard on Thursday in Washington by Chase in Chambers. Meantime, affairs will be peaceably continued. Both Mayors are holding courts, and both sets of police are peaceably patrolling the streets.

The Alabama Claims.

WASHINGTON, April 6.—The State Department has advices that the British Government desires again to discuss the Alabama claims. Lord Clarendon prefers that Secretary Fish should propose terms of settlement and make an offer to that effect. The Secretary is of opinion that better terms can be agreed upon by waiting than by immediate action.

WASHINGTON, April 6.—Capt. C. C. Hartwell and H. L. Beck, U. S. A., are assigned to duty as Indian agents in Colorado. Beck relieves W. H. Morris.

BY THE CABLES.

MADRID, April 6.—The enforcement of the conscription law commenced yesterday throughout Spain. Proceedings were generally quiet, but disturbances were reported in some places. In Barcelona there was much agitation. People at Barriers threw up barricades and the troops charged and took them. At the town of Sang, near Barcelona, the rioters made some resistance and ten men were killed. It is reported that order is restored. Senor d'Rhegardy, Minister of Agriculture, remains in the Cabinet. The ministerial crisis is ended.

BERLIN, April 6.—The North German *Gazette* says that in view of demands and threats of Denmark with respect to North Schleswig, the restoration of friendship with Prussia is impossible.

DUBLIN, April 6.—The Waterford *Mail* announces the passage of the Irish force bill and appears in mourning at the death of liberty.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, April 8.—The *Call* claims to have positive information that the proposed trip of Prince Arthur to the Pacific coast has been postponed.

A boy named Rosenthal was run over at the corner of Geary and Jones street by a runaway team yesterday and seriously injured internally. The boy, Emanuel, run over by a loaded truck on Pacific street last week and had his chest crushed and leg broken, is likely to recover.

Freights paid on cargoes from American ports arriving at San Francisco in January, February, and March were a little short of $800,000 against $1,300,000 last year. The falling off is attributed in a large degree, to the Pacific railroad competition.

Within the past week, photographers employed by the Government, and working by the aid of magnesium light, obtained accurate views of excavations and drifts in Blossom Rock, forty feet below the surface of the water.

Capt. Robert Clary, charged with smuggling opium, has been honorably discharged after a full hearing of the testimony, nothing appearing to compromise him.

The stock exchange is again agitated regarding the question of removal from the Merchants' Exchange building to new quarters. It is proposed to occupy rooms in the old Alsop building, now being remodeled on California street, east of the present location.

One hundred and fifty feet of sea wall, between Mission and Howard streets, sunk five feet, probably from the foundation slipping over clay on the bottom into soft mud.

Yesterday afternoon the crowd of laborers congregated at Yerba Buena Park was fully double the apparent number at any time at work, and all demanding pay [illegible] for full time. Examinations [illegible] Hall [illegible] confirmed the report that it repeals the $50,000 appropriation bill, and as the Commissioners had no legal authority for commencing work they will now stop all work until legal advice is received. Father Gallagher is among the laborers at the Park, this morning counselling them against making any threatening demonstrations, and to preserve order. A large force of police are on detail, and other precautionary measures against possible riotous demonstrations, in case laborers allow themselves to be misled by demagogues, are believed to be ample in any contingency.

There is a negro in Holly Springs, Miss., whose only name is Charles Lewis William Augustus Cox, and he refuses to be set free. He has been sold twice since the war.

PROCEEDINGS OF THE REPUBLICAN STATE CONVENTION

FRIDAY'S PROCEEDINGS.

The Convention was called to order at 10 o'clock A. M., by Hon. J. F. Gazley, Chairman.

The large audience room of the Court House was completely filled with the members of the Convention and spectators.

Mr. Herman, of Douglas county, was called for and addressed the Convention upon the issues so plainly made between the two parties in Oregon. His speech was pointed and eloquent, and was received with great applause. Mr. Meacham of Umatilla, E. L. Applegate, and Mr. Johnson of Clackamas, also made speeches. At the close of Mr. Applegate's speech, the several Judicial Districts having agreed upon their nominees for Judges and Prosecuting Attorneys, the Convention proceeded with the nomination of a candidate for State Printer.

THIRD BALLOT.

H. R. Kincaid received 60 votes, H. Denlinger, 59, H. L. Pittock, 54; D. M. C. Gault, 25. No choice.

FOURTH BALLOT.

The name of Mr. Gault was withdrawn, and the ballot stood, H. R. Kincaid, 87; H. Denlinger, 62; H. L. Pittock, 47. Ninety-nine votes necessary to a choice.

FIFTH BALLOT.

H. R. Kincaid, 109; H. Denlinger, 76, H. L. Pittock, 11.

On motion of Mr. Crandall, of Multnomah, the nomination of H. R. Kincaid was made unanimous.

Mr. Odell, of Lane, thanked the Convention on behalf of Mr. Kincaid, who was not present.

The following gentlemen were then appointed a State Central Committee:

T. B. Odeneal, of Benton county; C. M. Foster, of Baker; F. O. McCown, of Clackamas; James Welsh, of Clatsop; Dean Blanchard, of Columbia, S. S. Mann, of Coos, T. W. Crooks, of Curry, David Bushey, of Douglas; W. M. Wilson, of Grant; Wm. M. Turner, of Jackson; W. M. Gibbons, of Josephine; W. H. Hailey, of Lane, John Barrows, of Linn; T. W. Davenport, of Marion; C. P. Crandall, of Multnomah, B. F. Nichols, of Polk; J. C. Franklin, of Umatilla; W. J. Snodgrass, of Union; T. R. Cornelius, of Washington; Z. F. Moody, of Wasco, and J. W. Watts, of Yamhill.

An executive committee, consisting of five members of the State Central Committee, was appointed as follows: T. B. Odeneal, C. P. Crandall, T. R. Cornelius, J. W. Watts and F. O. McCown.

The Convention then proceeded to ratify the nominations for Judges and Prosecuting Attorneys in the respective judicial districts as follows

First District—E. B. Watson, for Prosecuting Attorney.

Second District—For Judge, John Kelsay; for Prosecuting Attorney, James A. Odell.

Third District—R. P. Boise, for Judge, and J. C. Powell, for Prosecuting Attorney.

Fourth District—For Prosecuting Attorney, A. C. Gibbs.

Fifth District—For Judge, B. Whitten. Prosecuting Attorney, D. W. Lichtenthaler.

The 10th resolution in the order of business being "to fix the place for holding the next State Convention," was indefinitely postponed.

Hon. B. Herman offered the following which was unanimously adopted:

Resolved, That the thanks of this Convention are hereby tendered to the officers for the impartial and able manner in which they have discharged their duties.

Mr. Starkweather offered the following which was also adopted:

Resolved, That the thanks of the Convention be tendered to the People's Transportation Company for the courtesy shown to delegates and others attending the Convention.

The Convention and audience then arose to their feet and after giving three rousing cheers for the entire ticket, the motion to adjourn *sine die* was made and carried, and the Convention was declared adjourned.

Disabled Soldiers

[From the New York Tribune.]

Gen. Butler, as President of the National Asylum for Disabled Soldiers, has made his annual report to Congress. It appears that there are at this time 3,902 beneficiaries in the various asylums, as follows: At Central Asylum, Dayton, Ohio, 1,637; Eastern Branch, Augusta, Me., 636, North-Western Branch, Milwaukee, 425; Philadelphia Branch, 419; New Jersey Soldiers' Home, Newark, N. J., 324; Rochester Branch, Rochester, N. Y., 170, Maryland Soldiers' Home, Baltimore, 33; Union Relief Association, New York, 21; New York State Home, 50; by out-door relief, 59. The report shows that most of the begging, organ grinding, and other like pursuits, so commonly indulged in by cripples in the cities, are carried on by associations which pick up all the cripples to be found willing to be employed in such pursuits, at starving salaries, and that these associations make large sums of money, frequently as high as $20 per day, from each employe out of the misguided benevolence of mankind. The managers of the asylums also announce that they have full ability and accommodation to take care of every disabled soldier in the United States, who applies to them; that they have never refused to take care of honorably discharged soldiers, and that it is the fault of the soldier alone if he is either supporting himself by begging, or become dependent upon alms or the charity of anybody, or is asking aid from any State in the Union. No soldier, disabled in the line of his duty, and able to show it, who has been honorably discharged from the service, has ever been denied admittance into the Asylums. If there are any disabled soldiers who are not provided for, it is either because they refuse to go to the Asylums, or, having been, have so conducted themselves, after repeated warnings as to the consequences of their conduct, as to become nuisances and a disgrace to the name of soldier, and have been therefore dishonorably discharged or expelled.

JUDGE JOSEPH P. BRADLEY.—Judge Bradley is about 56 years of age, and for a number of years he has stood at the head of the legal profession in New Jersey. He was born near Albany, N. Y., and received his education at Rutger's College, from which he graduated in 1836 with high honors in the same class with ex-Senator Frelinghuysen and ex-Governors Newell and Parker. For some years after his graduation he was employed as a tutor at Rutgers, in the meantime studying law in the office of the late Chief Justice Hornblower, of New Jersey, whose daughter he subsequently married. After being admitted to the bar he devoted himself with zeal to the practice of his profession, and soon gained a lucrative practice. Judge Bradley allied himself with the Republican party at its incipiency, and, although not an active politician, he has aided to the full extent of his abilities in promoting the success of the party in the State of New Jersey. At the breaking out of the rebellion he gave an earnest and hearty support to the Government, and labored zealously to promote the success of the Union arms during the entire struggle. In 1862 he allowed himself to be nominated for Congress on the Republican ticket, but was defeated by Geo. Wright. Since then he has occupied no prominent position in politics, but has devoted himself almost entirely to his professional duties.

"WALRUSSIA" AND THE SEALS IN CONGRESS.—It is said that Alaska is to be converted into a county and attached to Washington Territory, with a representation of one Councilman and three Assemblymen in the Territorial Legislature, which it is believed will reduce the annual cost of that northern purchase to $5,000 per annum. It is also the general opinion about Washington that Secretary Boutwell's recommendations as to the Government running the Alaska seal fisheries on its own hook, will not be adopted by Congress, as it is not considered "the thing" for our Government (see Washington's Farewell Address) to be entangled in furring complications. The town talk—and there is much town talk about it—is that Congress will in all probability lease these fisheries at an annual rental, conditioned on the destruction of not more than 100,000 seals per annum, and an additional payment to Government of $3 for each seal caught. Of the comparative merits of such plans you can easily judge, and I need say nothing. There are said to be any number of people anxious to get such a lease.—*Washington Cor. Sacramento Union.*

CURRENT NOTES.

In the ukases which the Russian official journals publish, the Emperor's name is followed by fifty two titles.

The Mobile *Tribune* is anxious that the Southerners should do nothing politically to condemn the Confederate record.

The number of British officers on the full pay retired list amounts to ninety-six, of whom there are forty-two Generals and one Lieutenant. They cost about $225,000 per annum.

The astonishing statement is made that there are several persons yet confined in the Kentucky Penitentiary for the crime of running off slaves, some of them having ten years to serve.

An Indiana farmer thought he saw a ghost in a cemetery the other night. He procured his gun, thinking he would try the effect of cold lead on the apparition, fired, and brought down his own poor old white horse.

Louisville sends us a bit of queer news. It is that Jeff. Davis is writing a novel, which he will complete before the year is out. It relates to the Mexican war, is not to touch on [illegible] politics, and will be published first in England.

A friend of Mr. Burlingame says he had great expectations of the future of the Pacific States, where he intended to settle after accomplishing his treaty duties, and that he thought they would soon furnish a candidate for the Presidency.

Philadelphia has a novel will case. It appears that a man and his wife each made a will in favor of the other at the same time, but by some blunder the man signed his wife's will, and the wife signed her husband's. Not until after the death of the husband was the mistake discovered.

The Boston *Transcript* reports that a little four-year old girl, who was taken to see the ballet, expressed a wish on her return home to dictate a letter to her father, and did it as follows: "Dear papa, I have been to see some fairies dance. They danced on their toes. They had no feet; their toes were on the end of their legs."

The Chinese Government at Pekin has just issued a proclamation to sell the rank and title of an office in that [illegible]. Whether any of the emoluments of office will be included in the purchase is not stated; but we would recommend Pekin as a place to which ex Hon. Gov. Alcorn, of Mississippi, thus graphically describes Col. Yerger in his proclamation offering a reward of $1,000 for his capture: "The above-named Edward M. Yerger is about six feet high, weighs about 155 pounds, [illegible] in appearance, but not stoutly built, is of a handsome person; has dark brown curly hair, nearly black; mustache and goatee slightly grey, but colored black; has grey eyes; [illegible] somewhat [illegible] in conversation [illegible] vain; indulges freely in profanity, and is about 43 years of age."

SATURDAY MORNING, APRIL 9, 1870

The Contest Opened

The issue is now fairly made up for the campaign, and a contest which is to decide matters of vast moment in Oregon, and fix the status of our State in the estimation of the country, is about to begin in earnest. We are to decide whether the honor of Oregon is to be kept bright, or not; we are to determine whether our State shall be kept in sympathy with the great heart of the country, or fall to a condition where it will be avoided, neglected and despised; we are to elect whether we shall declare for a high minded and honorable policy, which will win us the respect of the world and promote the interests of our State beyond all calculation, or espouse a policy which would bring reproach upon us, cripple us in our national interests and hinder our advancement. Just as sure as we sanction the policy proclaimed in the Albany platform we shall do our State an injury from which it will not soon recover. A State which pronounces for repudiation is not a State to which people will come from abroad, bringing their capital with them to make permanent investments. It is not a State which can claim the assistance of the General Government for internal improvements and for the development of its resources. Such a State would be virtually an outcast from the society of States that form the Union, it would be looked upon with contempt, and would deserve all the contempt it should receive.

The Republican party of Oregon, appreciating the magnitude of the interests at stake has presented a platform on which all men of moderate views and honest intentions, without reference to former party affiliations, can unite for a common purpose. Candidates have been selected who are in every way unobjectionable. No motive which can inspire men to work in a good cause is wanting to prompt Republicans to vigorous, energetic and determined action. The better portion of the Democratic party disowns the doctrines of the Albany platform, and declares them not only indefensible but infamous. These men will either keep aloof from the contest or join hands with the Republicans to save the credit of the State. The Democratic party, as now marshalled and led, deprived of the element which has given it what moral strength it has possessed, cannot fight in this campaign with the vigor which has heretofore characterized it. On the other hand the Republicans are thrice armed in the justice of their cause, and feel the inspiration and the hope by which men engaged in a just cause are always animated. The advantage therefore in the contest is wholly on the side of the party which upholds the national credit and the good name of our State. The doctrines enunciated at Albany cannot succeed, for no cause can triumph which grossly violates the public conscience and has the proof of flagrant dishonesty branded upon it.

The Basis of Our Industrial System.

The Republican platform demands a tariff which shall discriminate in favor of domestic manufactures. Such a tariff we have now, but the opposition assails it and demands its repeal. This is a matter of great importance to Oregon. Without a tariff discriminating in favor of domestic manufactures we should be utterly unable to build up a system of diversified industry in our State. Without such a tariff as the Republicans have enacted and would maintain the manufacturing company at our State Capital would be forced to [illegible] their business, and their candidate for Governor would have much less money to use for election purposes.

In a national point of view this policy of discriminating in favor of our own manufactures is a vital thing to be considered. During the late great war the diverse industries of the North kept it in a state of great prosperity, while the absence of those diversified industries sunk the South in abject poverty. Never did men defend a cause, whether good or bad, with more desperate and obstinate bravery than did the rebels contend for theirs. They fought till their country was wasted and impoverished, and they themselves were in rags and starving. On the other hand our armies were better supplied in everything they needed during the last year of the war than the first. Instead of becoming weak through exhaustion, like the South, the North grew stronger and stronger as the struggle progressed, until by its tremendous power it finally crushed the rebellion, and then turned round and extended a strong and generous hand to lift up its fallen foe.

There was no miracle in this triumph. The North had in it the elements of perennial and unfailing strength, while the South had not. The one had diversified industries [illegible] and numerous kinds of skill; the other had long confined itself to one branch of industry requiring little else than brute force to carry it on. The people, who were educated at all, were taught to contemn the skilled artisan, and when the day of sore trial came they found themselves helpless and destitute of resources. They always advocated the principle of free trade. They preferred to sell to Europe the product of their one great rude industry, and buy from Europe the products of skilled workmen, so when war came they were not prepared for it.

They who are urging the policy of free trade upon Congress and the country are doing what they can to put us into the same helpless position before the world that the people of the South found themselves in when they undertook to try the strength of their arms against the more skilful and versatile North. The people of the North were taken almost by surprise. They had no time to make any direct preparation. They were [illegible] before the tocsin sounded, but through the combined skill of statesmen and artisans the nation rose like a giant. Its diversified industries, the product of wise legislation in favor of domestic manufactures, were the means of its salvation and its triumph.

Our Coin Supply.

In view of the probable speedy resumption of specie payments, the question of the amount of gold and silver at present in the country becomes of immediate importance, as affecting the volume of our circulation after such resumption. Since the discovery of gold in California twenty two years ago, there has been an unfailing production of gold from that State varying, however, very much in different years. In 1848 the yield was $10,000,000; in 1853 it reached $65,000,000, and in 1869 was only $23,000,000. The yearly average of production for twenty-two years has been about $45,000,000. From mines elsewhere than in California, an aggregate of $225,000,000 was produced. Since the year 1861 the gold and silver received at San Francisco has amounted to $514,600,000. From other points, the estimated receipts during the nine years were $60,000,000, making a domestic product of $574,600,000. The imports from foreign countries amounted to $148,800,000. Putting these figures together we have a total of $723,400,000. The foreign exportation during that period amounted to $520,000,000. This deduction from the above leaves $203,400,000, as the balance remaining at home. The *Financial Chronicle* attempts to estimate what amount of this treasure has been converted into coin, and what consumed by the arts and manufactures. According to that authority the quantity of coin in the country ten years ago is estimated at about $150,000,000. The stock in the country now is not materially in excess of that of 1860. If this be the case, it would appear that the average accumulation of about $22,500,000 per annum of the precious metals is used in the arts and manufactures.

A Discovery

We have found one Eastern journal that has sensible views about Indians, and that journal is the New Haven (Conn.) *Palladium*. It does not believe in good Indians. Its faith in the noble qualities of the Red Man has been sadly shaken since the time when it found Cooper's romances a joy and a delight. It observes that he is incurably lazy, and knows that he is not given to ablutions. He steals when he has the chance, scalps whenever he can do so with impunity, and treats his prisoners with revolting brutality. He is a nuisance, and is rapidly becoming, as civilization advances, an anachronism. He is fond of whisky, about the only civilizing trait he has acquired from contact with the white man. These are really important discoveries for an Eastern journal to make. The editor of the New Haven paper has probably had, at some time in his life, a race on the plains to save his hair from the "noble savage."

H. R. Kincaid, Esq., candidate for State Printer, is proprietor of the Eugene *State Journal*. At present he is at Washington, but it is understood that he will return immediately. His paper, the *Journal*, is one of the best of the local papers of Oregon.

The Salem *Statesman* warmly commends the nominations made by the State Republican Convention. It thinks the ticket will be perfectly acceptable and very strong. We expect a similar report from every part of the State.

Republican Ratification Meeting.

The Republican State Convention having concluded its labors yesterday, the Republican masses gathered last evening to ratify and affirm the Convention's nominations and platform.

A 7 o'clock a signal gun was fired, and three full bands at once struck up patriotic music—the Aurora Band at the "American Exchange", the U. S. Infantry Band at the "Occidental," and the Mechanics' Band at the Court House. After a few moments, the bands began to move, an immense crowd of people following, toward the Court House. The building was very soon filled—packed, to its utmost capacity, while hundreds of people were unable to gain admission.

The meeting was called to order by Judge Odeneal, Chairman of the State Central Committee, and Hon. R. P. Boise was by acclamation chosen to preside. He was loudly applauded when he appeared on the stand and took his seat as Chairman.

Answering to continued calls and applause, Judge Boise addressed the meeting in a speech of half an hour, in which he paid his respects to the repudiation feature of the Democratic platform. He showed how the adoption of such a doctrine would dishonor the people, destroy the National credit forever, and thus work the ruin of the Republic. He also spoke briefly of the main features of the Republican platform, giving it his earnest, cordial and entire approval.

The meeting having been thus organized and set in motion, the ratification proceeded with speeches, music, cheers and general good feeling. The speakers were Messrs. W. D. Hare, of Washington county, J. L. Parrish, of Marion, J. F. Gazeley, of Douglas, Thomas H. Brents, of Clackamas, Benj. Todd, of Multnomah, Dr. Watts of Yamhill, Jos. Magone of Clackamas, James O'Meara of Multnomah, Governor Woods, E. L. Applegate, A. B. Meacham and others. To mention even briefly the many good points made by these several speakers would take by far too much space here. While no one of them undertook to make a set speech—the time was too limited for that—no one of all the speakers but made some excellent hits. The speeches were generally felicitous, hopeful and confident of a glorious Republican victory as the result of the contest now fully opened between the advocates of National honesty and good faith on the one side, and the advocates of repudiation and National treachery on the other. The entire audience seemed also to partake of the same feeling of confidence and enthusiasm, and they responded to the eloquent and patriotic sentiment from the stand with applause of such earnest and decided character as showed that the people's hearts are fully enlisted in this struggle, and that they mean to rebuke in a fitting way the dishonorable proposals contained in the Albany Democratic platform. There never was held in the city of Portland a more thoroughly enthusiastic and earnest ratification meeting. The scene rose to grandeur when at the conclusion of his brief, but eloquent and stirring speech, Gov Woods called upon the audience to rise and join him in three rousing cheers for the Union of the States as preserved by the great Republican party of America. As if moved by a single impulse, the vast audience sprang to their feet and sent up such a shout, again and again, as was never before heard in this city, and as never came from men except when animated by high patriotic and invincible resolution, and complete confidence of coming victory. No ticket, nominated in Oregon, was ever sent into the field with such an unqualified endorsement and such an enthusiastic and rousing ratification.

The meeting continued, with scarce a perceptible diminution of numbers or slacking of spirit, till near midnight, when it broke up with cheers and music, every man retiring with the determination to win and the expectation of achieving victory at the polls on the 6th day of next June. And it cannot be that, such a ticket as we now have in the field, standing upon such declarations of principles and policy, and endorsed by such a ratification by the masses, can go forward to anything less glorious than complete and overwhelming victory.

The following were the rival tickets for State offices in Connecticut. The election took place last Monday:

	Republicans	Democrats
Governor	Marshall Jewell	James E. English
Lieut Gov	Morris Tyler	Julius Hotchkiss
Sec of State	Hiram Appleman	Thomas M. Waller
Treasurer	David P. Nichols	Charles M. Pond
Controller	James W. Manning	Seth S. Logan

A fellow who had been confined in the Syracuse Penitentiary for some time, was last week released, when he returned to his old quarters in less than an hour and begged to be taken in. He affirmed that the Penitentiary was the "best place he ever had in his life."

Henry Ward Beecher declined the proposed addition of $8,000 to his salary, it is said, because his congregation would, in case he accepted, require him to give up lecturing and writing for newspapers and magazines.

LAST NIGHT'S DISPATCHES.

CALIFORNIA

From San Francisco

San Francisco, April 8.—Hon F. Robinson was appointed to-day Supreme Court Reporter, vice Hon J. E. Hale, removed by act of the Legislature.

San Francisco, April 8.—H. A. Gorley has been selected to deliver the oration before the society of California volunteers on the 26th inst, the anniversary of the assumption of command of the Department of the Pacific by General Sumner.

The condemned Dutch ship [illegible] sold at auction to-day to Koopmanschap, for $6,100.

Liverpool wheat market closed weak to-day at 9s 2d.

Gold closed to-day at 112½. Greenbacks unchanged.

Hidden Treasure 24½, Mammoth 3, Yellow Jacket 53, Overman 8, Silver Wave 3½, Belcher 31, Gould & Curry 225, Alpha 16, Ophir 21½, Imperial 44, Noonday 2⅝, Bryan 3⅛, Chollar Potosi 30, Crown Point 23⅝, Hale & Norcross 141, Savage 72, Dancy 6.

John Meyer has received a verdict of $5,000 against the city for killing his child by a steam fire engine.

Minute guns has been fired all day in honor of Gen Thomas, whose funeral is appointed for to-day.

Harrington was knocked off Pacific street wharf to-day by being struck by a coal tub swinging from a vessel. He was taken up insensible, but not seriously injured.

The city is unusually dull. No highway robberies reported within the last twenty four hours.

Five thousand dollars has already been paid for labor done, or alleged to have been done, on the Yerba Buena plaza in one day and a half. Cartmen still remain to be paid and wheelbarrows to be settled for. The total expenditure will not fall much short of $6,000, all of which is practically wasted.

Several more negroes applied for registration as voters to-day, but the County Clerk, John Hannan, who is a Republican, declined to act until the opinion of the Attorney General is received.

The Widows' and Orphans' Fund Life Insurance Company, established under the patronage of the Order of Odd Fellows, has commenced business on a novel plan. It does business with all parties. Throughout the stock is owned by Odd Fellows. It not only insures lives and pays specified sums to persons who deposit principally small amounts of money, but authorizes insurance against accidents resulting in personal injury. For instance, a married woman can, in her own name, insure against any accident which may befall her husband, causing him to be partially or permanently injured, and in case of her death the amount may go to her children.

It is rumored that a grand excursion to the East over the Pacific Railroad, fare fifty dollars each way, tickets good for return within six months, to come off in May, is being arranged. No advertisement of such scheme is yet published, if any is contemplated by the company.

Horatio B. Gillelok, with G. H. Johnson & Co., shipping merchants, was found dead in his bed this morning. A vial of strychnine was lying upon a table near the bed, and a tumbler of strychnine and water was found on a chair. Deceased occupied room No. 633 California street, for some months past, and had never exhibited any tendency to destroy his life. He was about 38 years of age, unmarried, and came to this country in 1851. No reason for the suicide can be imagined.

Augustus King, an employee in Spaulding's Mill, on Freemont street, had an arm torn off below the elbow by being caught in the belting, this afternoon.

W. C. Stout, brother of Dr. Stout, of this city, died in New York on the 6th inst. He came to Monterey, California, in 1836, was agent for the Pacific Mail Company in 1848 and went on brig *Belfast* to Vancouver's Island for the Company that season.

An immense band of white light, expanding and contracting constantly, but average width greater than "milky way," extends entirely across the heavens, little north of the moon, deflecting slightly toward northeast and southwest. Smaller ones were visible in the north and south, near the horizon. The light was apparently electrical bands, and transparent shooting stars, though no clouds could be seen. Several brilliant meteors have been noticed, the band splitting in two, one-half each side of the moon, and they appear to be deflecting southwards. The color varies from white to pale rose color.

Stockton Dispatch

Stockton, April 8.—Several negroes were registered to-day by the county assessor. The county clerk, who has refused to register them heretofore, has now consented to have them enrolled. Forty-three names were placed on the list. There are 133 colored men who are entitled to vote.

From Los Angeles.

Los Angeles, April 8.—Receipts of bullion from Soledad mines continue large as usual. Major Turner returned from the mines last night and reports the prospects for the future of the district very flattering.

Reports from the San Diego mining district are that the work of sinking on some of the principal claims is going on slowly with favorable indications.

There is no foundation to the report that the owners of Good Hope claim have sold a portion of their interest. They are busily engaged getting out rock for shipment to San Francisco. Work is also progressing on the San Diego, Number One, Washington and others.

The report of the discovery of old mines at San Diego wants confirmation.

Emigrants from Arkansas and Tennessee are settling in Tulare, Kern and Los Angeles counties. A train of eight large ox teams, direct from Arkansas, arrived at Visalia this morning, twelve months on the road.

Horse stealing is very common in the Kern country. There is supposed to be a regular organized gang of thieves between the upper country, Visalia, and Los Angeles.

Funeral of Senator Burnett.

Petaluma, April 8.—The funeral of Senator Burnett took place in this city to-day. The ceremonies were conducted under the auspicies of the Mason's and Odd Fellows fraternities. Gov. Haight was present, and assisted in performing the last rites.

NEVADA.

Virginia, April 8.—The Adams Mill was burned, in Six Mile Canyon. Insured in the Phœnix Insurance Co.

The Alabama Claims—Possible Renewal of Negotiations

[From the Baltimore American.]

Washington, March 15.

It was announced several weeks ago that all correspondence and negotiations upon the *Alabama* claims had been suspended. It appears now, however, that there is further correspondence in progress, which may lead to additional negotiations and possibly an adjustment of the long pending difficulties between the two Governments. It will be remembered that Secretary Fish, in an elaborate dispatch, reviewed the whole question and took occasion to recapitulate the position assumed by our Government and the wrongs to our people growing out of the action of the English Government in allowing the *Alabama* and other piratical vessels to be fitted out and depart from English ports to prey upon our commerce. This dispatch was not well received by her Majesty's Minister, which fact Mr Motley communicated to the Secretary of State. In answering this dispatch Lord Clarendon respectfully declined in a brief note to continue the correspondence, which was read to the Secretary of State by Mr Thornton. Accompanying this note was an elaborate document or statement, which was neither dated nor signed, and which was not read to the Secretary of State. Some time after Secretary Fish learned that the accompanying document was intended as an answer to his dispatch. Not having any official knowledge of this, he immediately addressed a note to Lord Clarendon, through our Minister, to know whether the unsigned document was to be regarded as an official answer to the dispatch. No reply has yet been received. If the answer is in the affirmative, the Secretary will reply to it at once, thus again opening the correspondence. It is understood that the English Government is very anxious that the *Alabama* question should be adjusted.

The Lexington (Ky.) *Statesman* has information that, on Saturday night last, a band of Ku Klux made an attack upon a negro village, just east of Mt Sterling. A regular battle was fought between the K. K. K's and the negroes, which resulted in a couple of Ku Klux being slightly wounded and captured, and the rest being driven off. The prisoners begged the negroes for mercy, and the negroes granted it to them and let them go.

Mr Maverick has ingeniously turned all the criticisms on his "Life of Raymond" to account, by filling a circular full of extracts from press notices, entitled "A Literary Salad." First come the pleasant criticisms under the head of "The Oil," then the pungently severe, under the head of "The Mustard," and then the sharpest of all the criticisms, under the head of "The Vinegar."

OREGON.

Mumps are prevalent in Dallas.

There are a great many persons loitering about Corvallis without any visible means of support.

Grouse shooting is a popular pastime just now in Polk county. The foothills are alive with them.

The Fashion Saloon, at Oregon City, was robbed on Wednesday night of money, valuable wines and liquors.

The Corvallis *Mercury* is in a sweat over a little game of its own for "trading" on election. Beginning rather early it seems to us.

John McGee's room was robbed in Corvallis, the other night. A watch worth $150 was among the property stolen, so says the *Mercury*.

The *Republican* says that Mr. W. W. Bone, of Dallas has [illegible] 84 head of calves, one year old, at thirteen dollars per head. For stock of that age that is considered a good price.

The steamer *Reliance* was damaged a short distance above Oregon City on the morning of the 7th. The damages were to her wheel, but repairs were made and she reached Salem only a little short of time.

The Salem Musical Union advertises that they will perform the beautiful musical cantata named Queen Esther, at Reed's Opera House in Salem, on Monday, Tuesday and Wednesday evenings next. This is the first piece of this kind that has yet been brought out in this State.

The *Statesman* of the 8th says Rev Mr. Driver came up on the *Reliance* last evening, accompanied by Rev Mr Roberts, and bringing home the remains of his departed consort, for the last sad rites. They were met at the wharf by quite a number of friends anxious to testify their sympathy by any little acts of assistance or respect for which opportunity might offer. How different the scene from that of their departure but a few days ago!

Mr. Waymire has heard from his sons and their families, who started over the mountains for Tillamook from Polk county. The company had got as far as the Eight Mile House, when the snow storm caught them. Here the women were left, while the men pressed on over the mountains in the storm. The loose snow was about four feet deep, and the passage is represented as being very hazardous and laborious. A valuable horse was lost in the journey by falling over a precipice. The snow, after being packed down, was two feet deep.

The Dallas *Republican* learns that there are about a dozen persons in Polk county who are intending to remove to Tillamook county in the spring. That place offers many inducements to immigrants. It is near the sea coast with a good harbor for coasting craft, and consequently is near market. The opportunities for agriculture are considerable, and the lumbering interests are not to be estimated. In connection with farming are vast natural pastures, inviting the stock raiser to enter and take possession. We know of no spot west of the Cascade range that is a better place to settle than Tillamook.

A Railroad Across New York Harbor.—The latest New York engineering project is the construction of a railroad-bridge across the harbor, to Staten Island, to be built upon a pile structure some five miles long. The bridge will start from an extensive bulkhead, to be constructed about three fourths of a mile from the Battery, this bulkhead to be connected with the city by double ended ferry boats. It is proposed to divide the bridge into three divisions—one for foot-passengers and vehicles, another for horse cars and the third for steam cars. The scheme also contemplates the extension of the railroad across Staten Island and the connection of its southern extremity with Perth Amboy, on the main land of New Jersey, by means of another bridge. Both the bridges will have "draws" ample for the accommodation of shipping. The Camden & Amboy railroad, by adopting this route, would be able to reduce its time between New York and Philadelphia fully thirty five minutes. It would also open up a wide area for dwellings, much more convenient and desirable than the same distance up the city, or across to Long Island. The estimated cost of the bridge is one million dollars. Some of the best engineers have pronounced the scheme perfectly feasible.

How to Treat a Burning Chimney.—If it is desired to extinguish the fire in a chimney which has been lighted by a fire in the fire place, shut all the doors of the apartment so as to prevent any current of air up the chimney, then throw a few handfuls of common fine salt upon the fire, which will immediately extinguish the same. The philosophy of this is, that in the process of burning the salt, muriatic acid gas is evolved, which is a prompt extinguisher of fire.

A Providence man chose for his daughter, between her three suitors, by playing "seven up" with them. He "set up" the cards and neither of them got her.

THE WESTERN MONTHLY
FOR 1870.
THE CONDUCTORS OF THE WESTERN MONTHLY have aimed to produce a Magazine which should properly represent the growing literature of the great Mississippi Valley—hitherto without a representative among the Literary Magazines of the country. Encouraged by the hearty appreciation and support thus far extended by the public, they will spare no pains or expense to insure the future excellence of their magazine and make it attractive and valuable to all.
The Third Volume of this Periodical begins with the January number. In this number will be commenced a new Serial Story entitled "The Rolling Stone," by George Sand, which will be the greatest work of this great novelist and one of the most readable stories ever produced.
The Steel Portraits and Biographies of Prominent and Representative Western Men, which have proved so popular and distinctive a feature of the Magazine will be continued. In addition to the above, The Western will contain articles in Prose and Poetry from an able corps of Regular Contributors, among whom are the best writers in the West.
Terms of the Western:
Single Copy, $3 per year, in advance; Five Copies for $12 50; Ten Copies for $20, and each additional copy, $2. For each Club of Five or more an extra copy will be furnished *gratis*. Specimen number mailed to any address on receipt of 30 cents.
Our Premium List:
For Three New Subscribers with $9, we will send a copy of Dr J. W. Foster's "Physical Geography of the Mississippi Valley." Price $2 50—a work which should be in the hands of every person interested in the Great West;—or a neatly bound copy of The Western Monthly for 1869—Vols. I and II.—Price, $4.
For Six New Subscribers, with $16, one copy of Macaulay's "History of England,"—5 Vols. 12mo. Cloth.—Price, $7 50.
For ten New Subscribers, with $30, a copy of Worcester's Quarto Dictionary, or Webster's Unabridged Dictionary; Price, $12.
For Twenty New Subscribers, with $60, Putnam's new edition of Washington Irving's Works, complete, in Cloth, 23 Vols., Price, $29.
For Forty New Subscribers, with $120, either of the following Sewing Machines: Grover & Baker, Singer, Florence, Willcox & Gibbs, or Elliptic; Price, $65.
For Fifty New Subscribers, with $150, a copy of "Appleton's New American Cyclopedia, complete in 16 Vols. extra Cloth; Price, $80.
☞ For the largest Club in excess of Fifty, we will give, in addition to the Cyclopedia, a cash prize of ONE HUNDRED DOLLARS.
Send the names and the money as fast as obtained, and the Premiums will be sent free of charge, as soon as the Club is complete. The Magazine will be sent to any address desired. Write the name and address of each subscriber in full, and accompany each with the Money by Postoffice Money Order, Draft or Registered Letter.
☞ The offer of the Cash Premium will only be extended to Feb. 20, 1870. Address,

Ballot Box Stuffing. In the early days o San Francisco the business of ballot box stuffin led to the organization of the Vigilance Commit tee, and terror in the city. That original ballo box is yet on exhibition in some one of the publi places of San Francisco and is of considerabl interest to those who take the trouble to go an look at it. In this city yesterday, a new ballo box, of the stuffer's kind, was on exhibition a Petty & Russel's. A gentleman from East Port land, Mr Nicholson in attempting to show th workings of the box wrote a ballot "Grover," t illustrate the theory and the passage of the ballo [illegible] the box.

Over the Bank. Yesterday a cartman, t unload a lot of trash backed his horse and car up to the dump at the foot of Oak stree Some light stuff from the load was carried ove the horse by a south wind and this frightene the animal so that it backed clear over th "chock" at the dump and both horse and car fell topsy turvy for a distance of about thirt feet, into the water of the river. The horse wa not hurt seriously but the cart was considerabl we may say emphatically used up.

For example, there were ten years since but seventeen companies in the country, embracing but 56,000 policies Now there are sixty companies, insuring between five and six hundred thousand people for sums aggregating nearly $1,200,000,000. New companies are still organizing, and the probabilities are that with increased inducements offered by companies upward of two million people will hold policies [illegible] end of another ten years. There is now in almost every State a small army of canvassers, agents and others deriving a livelihood from life [illegible]. In this city at least a dozen different [illegible] are represented.

GOOD SAILING.—The barkentine *Jane A Falkinburg*, now discharging salt at McCraken, Merrill & Co's wharf in this city, is an Oregon-owned [illegible], hence, we are interested that she render a good account of her cruises. Under [illegible] of Capt. Cathcart, this vessel has just [illegible] a very profitable cruise as to time, at all [illegible]. When she last left this port, she was bound for San Francisco, which port was reached in seven days. Thence she sailed to Humboldt in six days. Next to Honolulu in sixteen days. From Honolulu back to San Francisco in seventeen days, and thence nine days to Portland—making the total round in 55 sailing days That [illegible] on land, over a good, smooth, [illegible] road. Capt. Flavel, of Astoria, [illegible] owner in the *Falkingburg*, is expected [illegible] when here destination hence will be [illegible]

[illegible] OF TREES —Ornamental trees, if [illegible], should be treated with the [illegible] fruit trees. Sometimes it will be [illegible] to remove lower limbs which are in the [illegible] general thing, it is better to leave [illegible] to take its natural form. Shrubs should [illegible] account in the plan. Many of [illegible] beautiful in foliage all the season, and [illegible] produce exquisite flowers. Prune [illegible] if they have become over crowded [illegible]. Let the trimming conform to the natural habit of the plant, and do not try to [illegible] naturally curving branches grow [illegible]. Those which flower only on the new wood need to be cut back, to induce a strong new growth, while shrubs upon which the buds for next year's blooming are ready formed, need only to be thinned.

[illegible].—In view of the rapid progress of events which are tending to make this the empire city of the Pacific [illegible], Mr. A. B. Richardson will, to-day at 10 o'clock A. M., address the public [illegible] and commercial establishment upon a subject of vital importance to business [illegible], and immediately thereafter will offer a [illegible] in this city, belonging to [illegible] over whom Mr. O. Risley is guardian, [illegible] own price. This property is located on [illegible] street, between Fifth and Sixth, has a [illegible] upon it, and is beyond a [illegible] the most desirable of any property in [illegible]. At all events be on hand to hear Mr. [illegible]. Reporters for the press, [illegible] are specially asked to be [illegible], buy or not.

[illegible]. The Wallamet is rising [illegible] without difficulty.

The bark *Whistler* sailed for Portland on Thursday.

[illegible] from Honolulu, Mr. George Mc[illegible], by the *Cambridge*.

The bark *Cambridge* will load with lumber at [illegible] for her return voyage to Honolulu.

[illegible] will be administered at [illegible] to-morrow morning at 11 o'clock

The Amateur Brass Band, in attendance at the [illegible] with the Southern delegation, return [illegible]

The [illegible] of County Commissioners meet on [illegible] for the transaction of business

The Washington Guard give a soiree at their [illegible]

[illegible].—The usual Saturday afternoon [illegible] exercises, by the 23d Infantry Band, will take place at the Plaza(s) to-day, at 1:30 P. M. The following programme has been [illegible]

[illegible] The Standard Bearer.
[illegible] Schottisch.
[illegible] from La Travita—*Verdi*
[illegible] Lingards Quadrille.
[illegible] Aria from La Sonnambula (All is Lost [illegible])
[illegible] Waltz, Julliens Farewell to America.
[illegible] Song, The Little Brown Cot on the Hill.
[illegible] Galop, Champagne Charlie.

BALLOT BOX STUFFING.—In the early days of San Francisco the business of ballot box stuffing led to the organization of the Vigilance Committee, and terror in the city. That original ballot box is yet on exhibition in some one of the public [illegible] of San Francisco, and is of considerable [illegible] to those who take the trouble to go and look at it. In this city, yesterday, a new ballot box, of the stuffer's kind, was on exhibition at [illegible]. A gentleman from East Portland, Mr. Nicholson, in attempting to show the workings of the box, wrote a ballot "Grover," to [illegible] the theory, and the passage of the ballot [illegible] the box.

OVER THE BANK.—Yesterday a cartman, to unload a lot of trash, backed his horse and cart unto the "dump" at the foot of Oak street. Some light stuff from the load was carried over the horse by a south wind, and thus frightened the animal so that it backed clear over the "dump" at the dump, and both horse and cart fell [illegible] for a distance of about thirty feet, into the water of the river. The horse was not hurt seriously, but the cart was considerably [illegible] emphatically—used up.

Mr. [illegible], whose appointment as Chief Engineer and Superintendent of the Oregon and California Railroad Company will be noticed in this [illegible] issue of our paper, we are informed comes with a reputation of much experience, as well as personal energy in railroad matters We congratulate the company on this appointment, as it augurs well for the early completion of a railroad in which Portland, and we might add, the whole State of Oregon is deeply interested [illegible] ahead, gentlemen.

FREIGHT LIST.—The following is a list of the freight shipped per *Montana* to San Francisco, on the evening of the 7th . 910 qr sks and 998 hf sks flour, 1,357 sks potatoes, 300 sks wheat, 100 sks [illegible], 530 sks oats, 2,474 bxs apples, 635 bxs eggs, 21 cases bacon, 18 bales wool, 16 pkgs butter, 58 pkgs mdse, 109 pkgs dried apples 12 coops chickens.

PRETTY GOOD GUNS.—The firing of guns last evening in honor of the candidates on the Republican State ticket were pretty good One hundred in all were fired, but that one let off at eleven minutes past eight o'clock shook things up a little more than the general average Capt Paine understands how to shoot when he has a cause worth shooting for.

SUDDEN DEATH.—On Thursday Mr. Reuben [illegible], late a merchant of Oregon City, but more recently of Albany, was taken suddenly ill and died in Oregon City, of an apoplectic fit. He was a brother-in-law to Messrs. R and I. Jacobs of Oregon City. The remains were yesterday brought to this city and interred.

[illegible].—The City Council stands adjourned till Wednesday next, the regular night [illegible] present last evening

ONLY A THOUSAND —A Labor Exchange of Sacramento like that of Portland issued a circular advising all persons in need of *help of any kind* to forward their orders No fees will be charged to either party A contemporary says About one thousand dollars would help us materially—well pay the express charges

[illegible] YOUNG MEN At the usual hour of evening service to-morrow at Trinity Church, the Rector Rev W H Stoy will deliver the sixth and last lecture in the course especially designed for the benefit of young men The manliness of Christianity has been adopted as the subject

CONSIGNEES The manifest of the bark *Cambridge* is as follows McCraken Merrill & Co 40 bags sugar, 410 bags coffee 140 bales pulu, 2,012 kegs sugar, 50 tons salt Allen & Lewis, 1,052 kegs sugar Everding & Beebee, 2 kegs sugar James Welch 5 packages

OFF THE TRACK One of the dump cars in use at the cut on the Oregon and California railroad at East Portland was yesterday thrown from the track causing a temporary delay of work Accidents will happen under the best of regulations sometimes

HOW TO RAISE A NEW BONNET A Louisville blonde, with long and flowing locks, thirsted after a new bonnet but had no money, and could not wait to earn it So she went to a milliner and sold her hair to her, which was clipped off ruthlessly

CONTINUED —The Chinamen arrested for the assault on Tung Sing were brought before Justice Anderson yesterday, but as the Chinaman upon whom the assault had been made was yet unable to appear in court, the case was laid over

COMPROMISED —Another compromise case of assault and battery was made in the Recorder's court, by the parties paying costs, and promising better things in future

"FREE SCHOOLS AND THE BIBLE "—Rev E C Anderson will deliver a Lecture, at the Baptist Church, to-morrow evening, on the above subject Seats free

UNITARIAN CHURCH —This church will have services at 11 A M , and at 7½ P M Subject—"Following Christ"

A Specimen of Embodied History—A Veteran 104 Years Old

A private breakfast party was given in New York recently in honor of Capt Lahrbush, who that day entered his 105th year The party was given by Gen. J Watts Peyster, and among the invited guests were Gens McDowell, Hooker, Pleasanton, Barnard, Cullum, Vodges, Wallen, the Rev Dr S Irenæus Prime, and several prominent members of the press But our business is not with the other guests, but with the remarkable man in whose honor they had assembled. Although having reached his 105th year, Capt. Lahrbush retains all his faculties of body and mind, and is as hearty as a well preserved man of sixty-five From a biographical sketch read by De Peyster we cull the following interesting facts, Capt. Lahrbush was born March 9, 1766, only seven years after Wolfe took Quebec, ten years before the American colonies declared their independence, three years after the conclusion of the Seven Years' War and the development of Prussia into a first-class power, five years before Russia had extended her territory to the shores of the Black Sea, and while the most of Europe was but a mosaic of a hundred petty states Capt Lahrbush was only ten years old when the Declaration of Independence was made, he well remembers witnessing in his seventeenth year the parade in London of the last English garrisons, returned from New York and other points on our coast When he was twenty, Poland lost her independence, and when he was twenty one the Constitution of the United States was promulgated. At twenty-three years of age he entered the British army as a volunteer, being a cadet of the military school at Croydon. When he was twenty-six the French revolution had culminated in the establishment of a republic, he being in the field against it. He made the campaign of 1793, under the Duke of York At the age of thirty two he witnessed the surrender of Humbert to Cornwallis, of Yorktown memory, which ended the Irish rebellion. Two years later he was with Nelson at the surrender of Copenhagen At forty he was at the battle of Jena, and in the succeeding year he was an official spectator of the interview between Alexander and Napoleon on the raft on the Niemen At the age of forty two he was wounded by a fragment of a shell at the battle of Vimiera. He was at the battle of Corunna, where Sir John Moore was kill At 44, Captain, then Ensign Lahrbush, at the head of sixty men took a redoubt mounted with four cannon. He was severely wounded, and left for dead, but subsequently recovered. For this gallant action he was promoted to a lieutenantcy, and received the thanks of Wellington in general orders, and the Order of Talavera, presented by the Portugese Government At the age of forty five he was sent to the Cape of Good Hope At the age of forty six he captured in Algoa Bay an American schooner, one of the first prizes captured from the Americans in the "last war" In 1816, at the age of fifty, he was one of the guard over Napoleon, at St Helena, and remembers many incidents connected with that great man. He sold out his commission in 1818 Eight years later, in 1826, at the age of sixty, he lost his wife and fortune by shipwreck, and was himself cast upon the shore apparently lifeless From that time to 1848, when he arrived in New York, he traveled to Australia, Tahiti, France, over the continent of Europe, to Jamaica, and finally to New York, where he has since lived

His last act of heroism was to save the menaced life of a victim of the draft riot of 1868, in New York, at the risk of his own It is doubtful if such another remarkable and eventful life is on record.

A girl only four years of age, residing with her parents in Marion, Va., has a mustache and whiskers, the hair upon the forehead extending to the eye-brows, and a very head of hair, exceedingly black extending below the shoulders. The child is quite sprightly, with fully developed limbs and well formed body

The intelligence of the Democratic masses in New York city may be inferred from the circumstance that Reynolds, the murderer, recently had the story of Christ's crucifixion in atonement for sin repeated to him, when he inquired if it happened lately

There have been 3,154 conversions reported by pastors of the churches in the United States during the month of February

THE MAGNETIC TELEGRAPH —It is almost impossible to estimate the benefits to mankind of the magnetic telegraph Through its means longitudes have been determined with nearly absolute certainty, and the existence of cyclones, hurricanes and violent storms not only announced, but their course and velocity ascertained with such exactitude that their approach can be heralded in time to prepare against their destructive forces Shipping lying at our wharfs or anchored in the harbor, or preparing to sail can be forewarned in time to avoid injury and loss Farmers can be notified during crop season that a cyclone is sweeping over the land at some distant point and can shelter their grain and hay before it reaches their domains This system of heralding the approach of destructive elemental agents has been adopted in Europe and found to be admirable in its operation It is proposed to establish the same thing in this country, and we trust that the effort will prove successful, especially as the cost of inauguration is quite small The climate of California is so specially favorable for agricultural pursuits that our farmers can operate with assured certainty that their crops will not be injured by sudden and unforeseen storms as nothing of the kind exists except in the regular season after the harvest has been garnered, but all other sections of the Union are not so favored as the Pacific Coast, and artificial agents should be employed for their protection whenever possible —*S F [illegible] Herald*

What does Reason say?

The little mongoose when bitten by a deadly serpent resorts to a certain plant, eats of it, and escapes the effect of the poison That is instinct Human beings on the other hand, must depend on reason and experience in selecting the means of protecting health and life against unwholesome influences Now, what does reason say on this vital subject? Does it not tell us that to invigorate and purify the system is the best way to protect it against the invisible poison which generates disease? Surely it does The next question is, what guide shall we follow in choosing a medicinal safeguard? Reason replies let your guide be experience Well the experience of eighteen years comprised in one unbroken series of satisfactory testimonials assures us that Hostetter's Stomach Bitters possesses strengthening regulating and antiseptic properties which are not combined in the same happy proportions in any other preparation extant This, therefore is the antidote to which reason bids us resort when our health is imperilled either by the malaria which produces epidemic disorders or by any other cause, whether inherent and constitutional or connected with our habits occupations and pursuits

The venom of a noxious reptile is scarcely more subtle and dangerous than that which lurks in foul air and impure water To escape the fevers bilious disorders disturbances of the bowels and other serious maladies produced by these insalubrious elements it is necessary that the stomach and all the secretive organs should be, so to speak, in a robust condition Upon the amount of resistance which the vital system can oppose to the deleterious influences that assail it the safety of the health depends and it is because the GREAT VEGETABLE INVIGORANT imparts energy and regularity to the animal functions that it may be recommended with such confidence guaranteed as an invaluable preventive medicine

A Republican Centenary

From the N. Y. Times

On the 4th of July, 1876, we shall have completed the first century of our existence as an independent nation, and have perfected the grand experiment of popular government. The demonstration which will then be completed may fairly be classed as the most important in the political history of the world, not only directly upon the destinies of the North American Continent, but also in its influence upon the older civilizations, and when we reflect upon the fact that we have just arrived at the full realization of the great end sought to be attained by the founders, the approaching centenary becomes invested with enhanced interest and significance, and will fully justify an imposing national observance.

Precisely what form of observance would be the most appropriate, and upon what basis it should be had, are questions which are already being discussed. Two ideas very naturally suggest themselves in this connection. One is to make it the occasion of an international exhibition of art, manufactures and products of the soil and mines, similar to those which have already been held in London and Paris, and the other is to make it a simultaneous continental celebration. It is argued that the occasion might be appropriately improved by exhibiting to the world our natural resources and development, and in showing our progress in those arts which benefit mankind, comparing it with the progress of older nations, and demonstrating, if possible, the peculiar beneficence of Republican institutions in their effects upon the mere physical condition of the masses. In pursuance of this idea it is proposed to hold such an exhibition at Philadelphia, as being the place at which occurred the event it is designed to commemorate. A bill to that effect has already been introduced in Congress, providing for all the necessary details, including an official invitation by the President to all the civilized nations to participate and compete.

With all due deference to those who have devised this scheme, we must say that we do not consider it an appropriate method of celebrating such an event, or of expressing its full significance. It involves, at the very outset, an assertion of national egotism which seems to us in very bad taste, and which would surely be ridiculed as such by every foreign nation, based, as it would be upon an offensive assumption of superiority, and a challenge to competitive demonstration. But beyond this, we maintain that the celebration of our national centenary ought to be confined strictly to our own people, and not be made a matter of parade before the world. Neither should it be confined to a field comparatively so ignoble as material development. While we concede the industrial progress we have made, and the wonderful achievements we have accomplished in invention and production, to be grand demonstrations of the practical effects of Republicanism, we yet hold them subordinate to the intellectual and political progress of the nation, and to the salutary influences upon foreign civilizations which have gone abroad from us.

We recall the doubts and prophecies of failure which were expressed by European publicists during the first half century of our national existence, we remember, also, the differences of opinion on fundamental points among our early statesmen, the difficulties which were encountered in harmonizing those opinions into a Federal Constitution, and the reluctance with which that Constitution was adopted. We know that some of the most important points on which the founders differed were either compromised or postponed for future solution. The subsequent history of the nation has been one of fierce political strife, culminating in a bloody war which finally ended in the successful vindication of the policy of the wisest of our early statesmen. It is this culmination of a great struggle, this final assertion of principle, this American renaissance, that should be most prominent in the celebration of our national centenary. It should rise above the level of mere material things, and take on the distinctive impress of our higher American civilization.

In order to accomplish this, the celebration can only properly be localized. It must be simultaneous all over the country, and every citizen, from the Atlantic to the Pacific, and from the Lakes to the Gulf, should be allowed to participate. It should be enjoined by solemn proclamation of the President, by salvos of Federal artillery over the land. Moreover, it should in no wise be marred by sectional or partisan feeling, a consummation which—though it seems difficult now—we have reason to hope may be attained by 1876. The proposed International Exhibition at Philadelphia is well enough in its way, but it should not be held in commemoration of the hundredth anniversary of American independence.

American Trade with Southern Europe.—The Congressional Special Committee on the condition of American commerce, had a meeting the other day, for the purpose of hearing the representative of the Mediterranean and Oriental Steam Navigation Company on their proposed line to the Mediterranean, connecting with lines through the Suez canal to India and China. Col. Avery, of the Brunswick and Alabama railroad in Georgia; Hiram Walbridge, William H. Webb, of New York; A. B. Bryant, of Boston; Gen. Barnum and others were present. The managers of the Company explained in detail the proposed plans, and showed the value of trade with the East through the Mediterranean and Suez canal. Col. Avery stated that the establishment of a steamship line connecting Brunswick with the ports of Southern Europe was an enterprise absolutely demanded, and that his road would annually transport a million bales of cotton to the seaboard. Gen. Walbridge stated that ample capital awaited the passage of the proposed bill, to construct twenty-one first class iron steamships. Mr. Bryant set forth the great value of trade with Italy, Austria, Switzerland, and other countries of Southern Europe, and that fifty thousand people would annually emigrate from Italy alone. It was shown that cotton, tobacco, lumber, coal, and petroleum, largely consumed by those countries, could be sold in Southern Europe to an almost unlimited amount, that thousands of American manufactured articles, agricultural implements of all kinds, engines, locomotives, carriages, sewing-machines, &c, would largely enter into the trade with Austria, Italy, Southern Russia, and Northern Africa, provided a steamship line should be established. It was stated that by way of the Suez canal a large part of the trade with India and China would be carried on, and that more than a million dollars annually would be saved to the National treasury in duties, which are now lost by returns allowed on damaged goods brought in sailing vessels, and which, to a considerable extent, enter into consumption, instead of sound goods; that Austria annually produces more sugar than the United States; that Italy has 375,000 acres of land cultivated in rice, and the value of her cotton product is $12,000; that she has ninety nine ship yards in active operation, and maintains four lines of steamships, comprising over forty first class vessels. Much interest was felt in the whole subject, and the committee room was filled with members of Congress and other persons.

Paris Journalism.—There are thirty one daily newspapers in Paris averaging a daily circulation of 300,000 copies. In December, 1869 the *Marseillaise*—Rochfort's paper—had a daily circulation of 70,000, the *National* of 6,000 and the *Pays* 2,000 copies, the least of all. The highest priced journal is sold for five cents, the lowest for one cent. The stamp duty on the thirty one daily papers amounts to $3,000 a day, or $1,214,000 a year. In addition to the thirty one newspapers, there are issued two police gazettes and three penny papers, having an aggregate circulation of 500,000. The *Petit Officiel*, under its contract with the Government, furnishes [illegible] copies gratis to the country people. The weekly newspapers are twenty-six in number, four of which are illustrated journals and nineteen comic.

One of the most curious dramatic incidents we have ever heard of is reported by the Evansville, Indiana, *Journal* which says: "A crying child in the audience, on Saturday evening, elicited more applause for interrupting the delivery of McKean Buchanan's best parts, than did the best of his acting." The statement would have been more satisfactory if we had been told whether the passage in question was declamatory or pathetic, and, if the latter, whether it be not possible that the child mistook Mr. McKean Buchanan for its grandmother? These childish criticisms are sometimes extremely suggestive; and we must say that we find a great many of them in some newspapers.

Fisk, Jr., is admitted to be the "champion comic witness" of the United States.

H. T. HELMBOLD'S

CONCENTRATED

FLUID EXTRACT BUCHU.

The Great Diuretic.

THE PROPRIETOR TRUSTS THAT HIS REMEDIES, from the fact of being advertised, may not be classed as patent medicines.

BUCHU, in one form or other, has been prescribed by every educated physician for more than

TWO HUNDRED YEARS.

H. T. HELMBOLD claims a superiority in the treatment of [illegible] its virtues. The experiments were made whilst engaged in the DRUG business in the city of Philadelphia 19 years ago, prompted by the alarming increase of diseases of the Bladder, Kidneys, Gravel and Urinary Organs existing in both sexes. These diseases were attracting as much attention as diseases of the liver or any other organ of the body. Upon the sound and healthy condition of these organs, the nervous system and liver were involved, and the happiness of the entire human family depended.

The BUCHU, acting favorably upon both Liver and Kidneys, to prepare it so it would retain its strength and active principle was the aim. It must not be made as unskilled persons make tea by boiling. It is a delicate leaf, and its active principle would be destroyed by such a process. It must be prepared in VACUO, and of the long leaf, fresh and carefully selected.

THE SUPERIORITY OF MY MODE OF PREPARATION IS ACKNOWLEDGED. I now ship to the point (CAPE OF GOOD HOPE) where the leaves are gathered large quantities of

My Fluid Extract.

THE ARTICLE STANDS PRE-EMINENT AND IS KNOWN IN ALL PARTS OF THE WORLD.

The first and most important object was to offer to the afflicted a remedy that was perfectly safe, and could be taken by adults—children. Ignorant persons, who pay no attention to dose, direction or advice, who might reason, "That if a teaspoonful taken occasionally did good, two would do better, and perhaps a bottle would cure in a day."

Many have broken down their health by dissipation and on this principle, but they had been *years* in doing so.

What I would have understood is that no injury can arise from its use. It is as safe as any article of food, but patients must not expect any medicine to rebuild a wrecked or shattered constitution in a few days, and perhaps with a single bottle.

Notwithstanding the number of years I have been engaged in business, there may be those located at a distance that may not be aware of all the facts, and would like to be satisfied on all the points. Having been educated a druggist, I append the following:

From the Largest Manufacturing Chemist in the World.

"I am acquainted with Mr. H. T. Helmbold. He occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise.

WILLIAM WEIGHTMAN,
"Firm of Powers & Weightman,
"Manufacturing Chemists, Ninth and Browning Sts.
"Philadelphia, Nov. 15, 1854."

I propose to give evidence that this remedy is not a Patent Medicine. The objection which generally lies against all discoveries and inventions in medicine is "*Publicity*." If somebody should discover a remedy to prolong life, or an infallible cure for cholera or consumption, what a monster would he be to withhold his knowledge. We have yet to learn from what chapter or verse in Scripture to quote, "that men may not *heal others of their fellow-men of any disease*."

Nor have we asked "*Pickwicks*, *Affected Prudes*, or in short, *men who are possessed of every kind of sense but common sense*, *and all kinds of opinions but their own*." The Buchu is a good thing—it has hundreds of thousands of living witnesses to attest its virtues and commend it. It is the prejudice of bigots and the envy of "Quacks."

We offer the following evidence:

"BUCHU.—Its odor is strong, diffusive and somewhat aromatic; its taste is bitterish and analogous to that of mint. It is given chiefly in complaints of the urinary organs, such as gravel, chronic catarrh of the bladder, morbid irritation of the bladder and urethra, disease of the prostate gland, and retention or the incontinence of urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in dyspepsia, chronic rheumatism, cutaneous affections and dropsy."

TESTIMONY.

Cure of Gravel of Five Years' Standing —Stone Passed and to be Seen.

Savannah, Tenn., May 14, 1869.

Dr. H. T. HELMBOLD—Dear Sir: We introduced your "Fluid Extract Buchu" in this country about eight months ago, and are happy to state that it is meeting with universal favor. We wish to inform you of one instance (among many) where your "Buchu" has worked wonders. A man in our county named J. B. Estell, had been suffering about five years with gravel. About six weeks ago he bought of us one bottle of your "Buchu," and before he was through with one bottle he passed a gravel that weighs eight grains, which we now have on exhibition in our drug store. He says that he will never be without the "Buchu" in his house again. Your preparations are gaining favor every day.

Very respectfully yours, &c.,
ECCLES & HINKLE, Druggists.

Cure of Bladder and Kidney Affection of Long Standing. Stone Passed and to be Seen.

Westport, Conn., Sept. 6, 1869.

H. T. HELMBOLD, Esq.—*Dear Sir*: I commenced taking your Extract of Buchu about two weeks since for an affection of the bladder and kidneys. I have suffered by spells very much for a few days past. But yesterday relief came through the effect of your "Buchu." A stone passed from my bladder about the size of a large pea, and I now feel perfectly well and entirely free from the pain that I have suffered with "so hard." I attribute my cure to your medicine entirely, and would recommend all persons similarly affected to try it. I have great faith in its curative powers.

Yours truly, THOMAS J. BENNETT.

Cure of Kidney and Bladder Affection of a Patient Seventy-eight Years of Age.

THANKS TO MR. HELMBOLD.

Girard, Pa., March 31, 1869.

I, in Common with [illegible] I desire as an unsolicited tribute to the merits of Helmbold's Buchu and for the benefit of those similarly afflicted as myself to say that after consulting many eminent physicians and trying nearly all the best advertised remedies in the vain hope of finding relief from aggravated kidney and bladder disease, from which I have suffered excessively for many years, good fortune finally suggested to me Helmbold's Buchu, which I commenced using, with little faith and no apparent beneficial results for about a month. At the expiration of that time however, I thought I commenced to experience a slight relief, which encouraged me to persevere in its use, and now at the expiration of four months, although I am an infirm old man nearly seventy-eight years of age, and consequently no medicine can be expected to favorably affect me as they otherwise would, I have found such unspeakable relief and permanent benefit from Mr. Helmbold's valuable discovery, that I feel I ought to publicly record the fact as an acknowledgment to him and a valuable suggestion to the public. Yours respectfully,

D. M. LAREN.

DR. KEYSER,

A PHYSICIAN OF OVER THIRTY YEARS EXPERIENCE AND A GRADUATE OF THE JEFFERSON MEDICAL COLLEGE AND OF THE UNIVERSITY OF MEDICINE AND SURGERY OF PHILADELPHIA.

Mr. H. T. Helmbold—Dear Sir: In regard to the question asked me as to my opinion about Buchu, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form of preparation of it I have not used, or known to be used, in the various diseases where such medicinal agent would be indicated. You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired in my judgment is warranted by the facts.

I have seen and used, as before stated, every form of Buchu—the powdered leaves, the simple decoction, tincture, fluid extracts—and I am not cognizant of any preparation of that plant at all equal to yours. Twelve years experience ought, I think, to give me the right to judge of its merits, and without prejudice or partiality, I give yours precedence over all others.

I value your Buchu for its effect on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu or any other proprietary compound of whatever name.

Respectfully yours, &c.,
GEO. H. KEYSER, M. D.,

A Case of Twenty Years Standing.

Philadelphia, Pa., June 25, 1867.

H. T. Helmbold, Druggist—Dear Sir: I have been a sufferer for upward of twenty years with gravel, bladder and kidney affections, during which time I have used various medicinal preparations and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room.

From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks was able to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing that it would be of greater value to you and more satisfactory.

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use in such affections.

M. McCORMICK.

Should any doubt Mr. McCormick's statement, he refers to the following gentlemen:
Hon. WM. BIGLER, ex-Governor of Pennsylvania.

Rahway, N. J., December 2, 1869.

H. T. Helmbold, Esq.—Dear Sir: I take great pleasure in sending you a certificate in addition to the many you have received from suffering humanity. I can scarcely find language sufficiently strong to express my heartfelt gratification at the wonderful cure your Buchu has effected. For four years I have suffered beyond description. All my friends (with myself) came to the conclusion that my case was incurable. Accident placed your advertisement in my hands. I commenced taking your Buchu. I followed directions and to my utter astonishment before I had taken seven bottles of your valuable medicine (I would give $100 a bottle if I could not get it at any other price) I am entirely cured. I most earnestly recommend it to all those suffering from disease. I have told many persons to take your valuable medicine, and they are doing so with great success. Any information my fellow citizens may require will be freely given by the subscriber at his residence, No. 78 Milton ave., Rahway, New Jersey.

H. M. FREEMAN,
COUNCILMAN THIRD WARD, CITY OF RAHWAY.

Rahway, N. J., Dec. 2, 1869.

We, the undersigned, are well acquainted with H. M. Freeman, of Rahway, and know that he has been a long time suffering, in the worst possible form, for the past four years, and that he has been entirely cured by the use of "Helmbold's Buchu."

N. Y. S. Vol. Institute.

CORNER OF FIFTH AVENUE AND SEVENTY SIXTH STREET, CENTRAL PARK.

(A Home and School for the Sons of Deceased Soldiers.)

Dr. H. T. Helmbold: Two bottles only of the package of your valuable Buchu presented to the Institute have been used by the children, and with perfect success. In the case of our little Lieutenant, A. J., his pride is no longer mortified, and he is free from the daily morning anathemas of the chambermaid who has charge of his bedding. I feel that a knowledge of the result of our use of your Buchu with the children under our charge may save many a Superintendent and Matron of Boarding Schools and Asylums a great amount of annoyance; and many a poor child, suffering more from weakness than from habit, may be spared punishment that is (but knowing it as a weakness instead of a bad habit) most unjustly inflicted upon them. Thanking you on behalf of the children, and hoping others may be alike benefitted, I am respectfully yours.

COL. YOUNG,
General Sup't and Director.

Great Salt Lake City, Utah,

MR. H. T. HELMBOLD—Dear Sir: Your communication requesting our terms for advertising was duly received, but from a prejudice I had formed against advertising "cures for secret diseases," it was left unanswered. During an accidental conversation in a drug store the other evening my mind was changed on the character of your Buchu. It was then highly commended for other diseases by two physicians present. Inclosed please find our rates of advertising. Yours &c.,

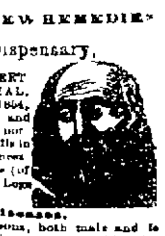
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES.

Dr. Gibbon's Dispensary,



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of these harpies.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them; not delay; obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus sworn to certificates dupe the unwary. Some of the self-styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, near Commercial. (Private Entrance on Commercial street.) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTERS.
